Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election without traverse of Group I, drawn to claims 1-6, in the reply filed on November 8, 2006 is acknowledged.
2. Claims 7-13 are withdrawn from consideration at this time.

Specification

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1774

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-6 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 2004-039579.

The Japanese reference discloses an organic electroluminescent device that comprises a color filter layer, a transparent protecting layer, which has a convex-concave lenticular lens element so that the convex-concave shaped, is arranged corresponding to a pixel array (see abstract). The figures disclosed in the reference show a sectional view of the image display device comprising a transparent base, a black matrix, a color filter layer, a coloring layer (color conversion layer), a transparent protective layer comprising a lenticular lens element that has a convex-concave surface and a transparent electrode layer. The Japanese reference also discloses that the device comprising an insulating layer (barrier layer). Paragraph 0050 discloses a liquid coating on the transparent protection layer.
